What is Synastry

Astrology is the study of the effects of planetary forces upon man. It is not fortune telling. It is one of the best methods for man to learn about who he is, where he came from and where he is going. Astrology reveals CHARACTER and character is destiny. If man can change his character, then man will have changed his destiny. The main uses of astrology are diagnosis of health and sickness, character analysis, vocational guidance, analysis of children's horoscopes so as to give parents a better idea as to how best to raise their children, and analysis of the compatibilities between people.

Astrology does not show anything but tendencies. A man can rule his stars by exerting his will. If a man decides to flow with the tide of life, then the tendencies indicated in the birth chart will at some time have their effect. The one thing a birth chart does not show is the WILL of the individual and how he may exert it. The matter of exercising free will is left entirely up to the individual. The wise man rules his stars, the fool is ruled by them. Astrology forewarns and being forewarned, a man is thus forearmed to better cope with the struggles of life.

Synastry House Report

Maddy's Sun in Nathaniel 11th House

Friendship and camaraderie are key to this placement. You may meet via friends or on a blind date. You can also meet via networks and groups that you are both involved in. There is a strong sense of shared interests and you often move in similar circles which gives you loads to talk about.

Your partner is attracted to you as they feel they will click with you and they sense an air of fun and freedom about you. Indeed you do click and the relationship will get off to a fast start as there is plenty in common and you may start brainstorming new ideas or even inventing together or plotting politically.

While Sun with 9th house lacks passion, this combination has both friendship and passion and yet the passion is more playful and less intense than with the Sun and 8th house combo.

You are good mates and yet this relationship could never move on from a friends with benefits arrangement. There may be little impetus to move in together or start a family as you may be too busy with life. This is a wonderful position for fun and yet who will make the first move to make it really serious?

This combination is wonderful for young lovers as it can help foster self-love in both of you as it is very tolerant and accepting. You will never judge one another. If this is to last as a marriage then both of you need freedom and to share responsibility equality – it cannot work where, in the words of my neighbour after she had a baby, 'His life has not changed at all!'

This combination is all about fun and friendship, whether it gets further will depend on other aspects that bring affection, love and true devotion.

Maddy's Moon in Nathaniel 3rd House

The third house is the house of communications, daily life and the intellect. Your moon in your partner's third house means much activity, coming and going and a great deal of restlessness. You may already have been friends for a while or perhaps you know each other's via siblings. You are pretty au fait with your partner's lifestyle and you are both people who enjoy variety.

This placement assists in communication, especially about feelings, rather than just superficial chatter. It deepens the intellectual side of relationships and increases emotional rapport. Your partner enjoys sharing emotions with you and you are able to comfort them.

You may have a large family and thus have many new relatives to bring into your partner's life. Your partner should relate well to your siblings and cousins and there should be a good atmosphere within the extended family and much visiting and coming and going.

You enjoy the way your partner thinks and reasons things out and even if you do not quite get them intellectually you intuitively understand where they are coming from.

This placement bodes well for marriage, as let's face it, one thing that many marriage people complain about is that their partner does not listen to and understand them and that will not be the case here.

Your partner may seek to manipulate you via emotions.

This often indicate a telepathic link.

Maddy's Mars in Nathaniel 3rd House

This placement brings lively communication with frequent bickering. Obsession with minor problems and trivialities can mar the otherwise stimulating conversation.

As with all third house placements, communication is terrific and the relationship is

mentally stimulating. You may in the initial phases of love travel frequently to see each other.

You may rush your partner and they may always feel under pressure with you. You bring a hectic dynamic to their life which is initially exciting, but can later be emotionally draining.

They find you exciting and are curious about your lifestyle, your motivations and your projects. This partner will take and intense interest in you sexually and personally. They love your approach to life and generally agree with your decisions.

You help each other solve problems and you do not let grass grow under your feet, it is a very active placement with much travel. You stimulate each other mentally and love to debate.

Over time you may dominate conversations and butt in. You could put words in your partner's mouth and stifle them intellectually. Your partner may just agree with you, for the sake of it, and express their own opinions elsewhere. You may not know what they are really thinking anymore and they tell you what you want to hear.

In some cases your partner was always a dark horse who let you do the talking.

This works best where the woman is the Mars person.

Maddy's Mercury in Nathaniel 11th House

You may meet on a double date, at a rally or a friend's house. You are both sociable and enjoy company. Together you can become more fervent in terms of your beliefs and goals. This is an excellent placement for couple who are very interested and engaged in politics or government (especially local government).

You may help your partner with networking and social media marketing. You may be the one who is more modern or who has their finger on the pulse and you can help your partner connect with many new and diverse social groups.

Friends may help or hinder this relationships. Your partner may flirt with your friends to wind you up and you may invite people over to stay to annoy him/her. Too many whimsical pursuits and false friends may deplete the energy you have for long lasting love.

The question here is not: are you attracted, or are you friends – it is rather how deep is this love or is it just friends with benefits. There is loads of fun and good experiences with ample communication, but unless indicated elsewhere you may just drift apart with neither wanting to commit.

You may toy with being lovers and then go back to being best mates.

Maddy's Jupiter in Nathaniel 9th House

This placement brings expansion, optimism and success. Whatever you are doing, it gets bigger and better when you team up with this partner. In some cases, this combination encourages waste and excess, you may both never know when enough is enough.

You may meet while traveling and your life together may be one long journey, where you never settle down for long. 'A rolling stone gathers no moss' is a key saying for this pairing. There is a great need to keep striving and that is why this combo breeds success. There can however, be an obsessive sense that the grass is greener on the other side and this can lead to a restlessness which ends up destroying your emotional life. You both need to put down roots and focus on what really matters, there is a time to seek, but endless seeking indicates neither of you understand what really counts.

You guys may meet in the course of study, you may help your partner with their studies or be their teacher. Your partner may feel somewhat intellectually inferior to you and you may exhibit some intellectual snobbery.

You may have similar views in terms of moral and ethical issues and you could enjoy

worship together.

You stimulate each other's interest in social, political and community matters and you tend to be an outward looking couple engaged in life.

There is much to be learned from each other and life will not be stagnant, it will be dynamic and will facilitate personal development.

Maddy's Venus in Nathaniel 12th House

This is actually a very significant if not rather overlooked placement that can have great benefits for you psychologically.

This placement is excellent for both romantic partners, friends and parent/child relationships. There is a very deep spiritual understanding.

Your partner has the ability to soothe and calm you. This is an excellent placement if you have had issues with anxiety and depression, as your partner has a magical ability to bring calm and balance to any inner turmoil you are suffering.

If you have suffered emotionally abusive relationships, this partner can both understand and bring closure to those painful wounds. This partner may not be the one, but they may get you ready for, The One.

Your partner can bring more restraint and proportion into your emotional life and help you to make better decisions. They may help you beat addictive behaviour and smash negative patterns that keep you locked in downwards spirals.

A wonderful placement for unselfish, unconditional love which is meant to be.

A great deal of karma and coincidence is associated with this match and much of the relationship is conducted in private or even in secret. It is a match which is unconventional on practical terms, but which makes total sense spiritually.

You will tend to be quite a private, reclusive couple, but you may enjoy joining with

others for art, music or consciousness raising activities.

Maddy's Saturn in Nathaniel 9th House

This can be a tricky one for your partner as you may not appreciate some of their beliefs i.e. political, religious or philosophical beliefs and you could ram home your beliefs until they agree to disagree and decide to keep their thoughts to themselves. You may be totally unaware of some of your partner's thoughts and ideas – perhaps they know you will disapprove. This can be a relationship where you are politically from different camps or have different religions.

You may tame your partner and put an end to their wilder nature, but you could also dampen their spirits, and by being the voice of reason you could end up being a voice of pessimism that tends to throw cold water on your partner's ideas and aspirations. You have to be careful to temper advice giving with some positivity or else you may be a perpetual Debbie Downer.

You could be a very ambitious couple and yet your ways of going about things are so different – attempt to complement each other more often and learn from each other's approaches.

Your partner may help you to think bigger, be less rigid and less narrow, they can open you to possibilities.

Maddy's Uranus in Nathaniel 6th House

As Uranus moves rather slowly through the zodiac and spends about 7 years in each sign, if you date people of a similar age they may have Uranus in only one of two of your houses and visa versa.

You may reform or revolutionize your partner's attitude to work and health. You might insist on new diets or fancy new super foods or possibly introduce new age techniques like yoga, meditation or tai chi to your partner's routine. You could

also inspire your partner to use new technology to improve their organization or productivity. You are full of ideas about how to make life more efficient and ergonomic and could become highly frustrated if your partner is stuck in their ways.

Issues connected to your respective attitudes to health can cause conflict. You could be dismayed at what you see as laziness or apathy in your partner. Things like bad dental health or poor personal hygiene habits could be big turn offs for you. Your partner could see you as fussy or controlling and may resent your interference and yet you are just trying to help as you can see where they are going wrong.

On the other hand if your partner is anal and OCD about work or fitness, you will strive to help them to relax and bring more balance into their lives.

How you both meet halfway is vital, it could be you that have to compromise to accommodate your partner's habits and routines and whether you can will prove crucial. You can both be controlling and so maybe division of duties and separate bathrooms will be a must as your respective ways of doing things tend to annoy you both.

Maddy's Neptune in Nathaniel 5th House

As Neptune moves rather slowly through the zodiac and spends about 13 years in each sign, if you date people of a similar age, or even born in the same decade, they may have Neptune in only one or two of your houses and visa versa.

Romance is certainly going to be interesting and yet it can also be highly confusing - your partner's romantic messages may be misunderstood by you and it could take your relationship a while to take off due to all these mixed messages. The partner loves to talk about aesthetic matters i.e. art, movies and culture. In some cases they talk obsessively about themselves and wish you to give them reassurance about their talents, abilities and appeal - they may seek compliments and tire you out with their insecurities.

Your partner may work very hard at romance and they may be a compulsive flower sender or writer of romantic poetry or messages, your partner certainly tries very hard to create a magical ambiance and yet you may find that they are hopelessly idealistic about love and not able to deal with the harsh reality. Hopefully however, you will relent and take a leave out of their book and sail away on this romantic magic carpet with your partner.

Your partner could be very keen on talking about having children from the start of the relationship.

Your romance will follow an unusual trajectory and there can be some confusion and hurt feelings. You must be honest and straightforward with each other.

Maddy's Pluto in Nathaniel 4th House

As Pluto moves rather slowly through the zodiac and spends about 18-20 years in each sign, if you date people of a similar age, or even born in the same generation, they may have Pluto in only one or two of your houses and visa versa.

This placement is powerful and helpful, there could well be a karmic or past life connection which draws you together. You can make your partner feel safe and protected. You may feel very protective over this partner, you may even be like a surrogate parent (even if you are of a similar age).

You may be the key to this partner addressing deep seated issues and coming to terms with past family trauma.

You have a strong sense of awareness about this partner's unexpressed needs and issues and while that can bring understanding, you may however feel burdened by their problems.

You may well chose where to live and you will probably live far away from your partner's family.

You will control household affairs and decisions about the children. This partner may have a prominent career which affects home life or perhaps means you move a great deal.

Synastry Aspect Report

Sun Conjunction with Mars - ☉ ♂♂

Dynamic

Orb - 8.87

The attraction between you is strong and vital and has been from the start. Regardless of what you're like as individuals, when you're together, your energies run high. You each push the other to new limits and encourage yourselves to test boundaries; you do this both as a team and as rivals. Yes, that means there has been and will be some friendly competition between you.

Sun Trine with Jupiter - ☉ △ ♃

Harmony

Orb - 3.62

You've both had an instinctive idea of what's good for each of you and the relationship from the very start. Even if there are other more troublesome aspects between you, this one can help warm things up and stabilize your bond. This relationship is one that's characterized by growth and success. If you haven't already, you'll find you both go through some changes as individuals that can only be brought about through your connection with each other.

Sun Square with Saturn - ☉ ☐ ♄

Challenging

Orb - 4.81

This is a challenging relationship at best. Both of you have had plenty of moments where you've looked at each other or at yourselves in the mirror and wondered exactly why you got into this in the first place. Problems arise from the very serious differences that exist between you as individuals. There is a certain element of criticism and control between you, and you may always feel as if your individuality,

who you are as a strong, vital human being, is being challenged by your lover or even diminished.

Sun Opposition with Neptune - ☉ ♆ ♆

Tension

Orb - 1.22

You might have felt like soul mates early on in your relationship, but don't allow this powerful feeling to confuse you. The bond between you is certainly be strong, but it is complicated by projections you both make on each other. One way is to make sure you never move to the next stage of the relationship too quickly; be sure you know exactly what the stakes are.

Sun Trine with Pluto - ☉ △ ♇

Harmony

Orb - 6.79

You have both experienced this depth of feeling from the beginning as a sensation of being very well understood. Your bond probably even felt effortless from the start, as did communicating in a physical way. Old emotions from your lover's past even ones that may not have served them well for some time have found positive expression in this relationship. Basically, the two of you together can be quite creative on a mental or emotional level, and you help each other grow as individuals.

Moon Square with Mars - ☾ ☐ ♂

Challenging

Orb - 6.83

This is one of the most difficult and emotionally explosive of all comparative aspects. The Mars person is likely to be impatient with the Moon person. Conversely, the Moon may view Mars as rude, insensitive and overbearing. This combination is likely to produce emotional clashes and arguments. It is unfavorable for marriage and living together, although the physical attraction of the aspect does frequently result

in the development of relationships.

Moon Square with Mercury - ☾ ☐ ☿

Challenging

Orb - 6.39

This aspect produces difficulty in communication and with general understanding one another regarding everyday practical domestic affairs and family matters. There may be disagreement over diet, personal hygiene, neatness and order in the home, and the handling of personal affairs. Mercury tends to operate on a more intellectual and rational level, while the Moon responds on an instinctual and emotional level. Mercury is likely to view the other as over-emotional and unreliable, while the Moon person sees the other as overly critical and insensitive. A good deal of time may be spend discussing these differences with little resolve.

Moon Square with Venus - ☾ ☐ ♀

Challenging

Orb - 9.08

This is an adverse aspect for romantic relationship because it denotes great difficulty in understanding each others moods and feelings. In some cases, the attraction may be emotional or sexual, without real understanding or overall mental and spiritual compatibility. There is a an attraction here, but marriages may be contracted for reasons of financial or domestic security, or as a result of family pressure, rather than because of real affinity.

Moon Square with Uranus - ☾ ☐ ♅

Challenging

Orb - 4.61

This comparative combination is known for its sudden and very temporary attractions and infatuations. Long term, this is not a relationship aspect that works out. You tend to make each other nervous and irritable, and you're prone to

disagreements. Emotional upsets and immature behavior often mark relationships showing this aspect.

Mars Sextile with Sun - *

Opportunities

Orb - 2.27

This isn't any ordinary, sweet, retiring connection. A relationship between you is characterized by making plans and carrying them out as a team. There is lots of natural energy between you; in fact, together you create an energy that doesn't exist for either of you alone. Your focus is to put that energy to use.

Mars Square with Mars - □

Challenging

Orb - 0.94

Without plenty of harmonizing aspects to stabilize your connection and promote good feelings between you, this period could be the downfall of this relationship because of the hostile energy it creates. You notice that whenever you're around each other, you feel excited and touchy, ready to react to anything your partner does or says. Though you might start off with a strong sexual bond, that could be burning out fast in the face of the hard feelings that spring up between you. If you let yourselves indulge in petty arguing, it only gets harder. You take things personally; in a sense, you have the effect of poison ivy on each other spreading irritation that only seems to get worse.

Mars Opposition with Saturn - ♄

Tension

Orb - 3.13

When you're feeling tuned in and affectionate, wanting to connect on an intimate level, your partner is cool and aloof, emotionally unavailable. Your sexual rhythms are off, and your timing isn't the best when it comes to finding times when you're

both ready to go. You may frequently end up feeling rejected and unloved. You both have lot of expectations from each other which does not get fulfilled and the issue starts. You just rebel against the attempts to control you, which leads to indiscriminate behavior in the name of pure rebellion. Your own shortcomings are projected onto each other; you get mad at each other for possessing the qualities that you like least in yourselves.

Mars Square with Uranus - ♂ ☐ ♅

Challenging

Orb - 3.15

You two know almost instinctively how to get under each other's skin. You probably try to control this person what they do and when, what they say and don't say even if that's not normally in your nature. Something about their insistence on independence makes you try to pin them down by force. But they rebel against any controlling efforts on your part.

Mars Square with Neptune - ♂ ☐ ♆

Challenging

Orb - 6.71

You have to force yourselves to be completely honest and clear with each other; otherwise, the lines of communication become entirely too muddled. With other people, you can afford to fib every now and then for example, to avoid hurting their feelings when your opinions are just too different but between the two of you, these small, innocent fibs can get easily blown out of proportion and become big, hurtful lies. Falseness in the opposite direction likely occurs as well you might fake concern for your partner's problems, because you just don't get where they're coming from, and faking it might be the best you can do.

Mercury Conjunction with Mars - ♿ ♂ ♂

Dynamic

Orb - 0.89

You have great conversations, but they can get rather heated your partner constantly tries to best you, interrupting you in order to show off their cleverness and sharp wits. If you can handle that kind of energy, this influence should be a lot of fun! Friendly debates should prove exciting, unless you allow them to verge into more aggressive territory, which is a real possibility with this influence. If you grew up in a household that encouraged this kind of lively communication, you should be able to handle it just fine; but if you're used to more respectful or sedate conversations, you may find yourself taken by surprise, even at this stage of the relationship especially if your partner relies on aggressive arguments to make their point.

Mercury Square with Saturn - ♿ ☐ ♄

Challenging

Orb - 3.17

Though you might have gotten along well at first, after a while you probably found it increasingly difficult to communicate with each other. Criticisms from your partner continue to stack up and create resentments, and could be depleting your self-esteem. As you've gotten to know each other better, you may have started to think that your partner is more prejudiced or conservative than you originally realized, and you want to challenge those limited ways of thinking. They're equally hard on your ideas, and as time's gone on, they've establish a pattern of challenging your intellect more and more.

Mercury Opposition with Uranus - ♿ ⚡ ⚡

Tension

Orb - 3.11

You try to see things your partner's way and to get along as a couple should, but they just annoy you after a while, unless you can find things to do together that don't rely

too much on conversation or agreement. You prefer to be more logical, using your mind as the precision tool that it is to seek out logical inconsistencies. You arrive at your conclusions after a lot of consideration. Nothing can get resolved, because how can emotion or intuition win out over logic, or vice versa.

Mercury Opposition with Neptune - ♀ ♂ ♿

Tension

Orb - 6.76

This aspect can muddy your communication; it influences both of you, but especially your partner, to project a lot of potentially incorrect images onto each other, which can only lead to disappointment. But the ideals they've concerned themselves with probably had to do with your relationship; their expectations still run high, and they could lose sight of the fact that it's impossible to have the ideal relationship or perfect communication with someone. And as a result, the communication between the two of you is very far from perfect. This probably isn't out-and-out lying, but more a failure to really tell you who they are, what they're thinking and feeling, and so on, because they might really not know.

Mercury Trine with Pluto - ♀ △ ♇

Harmony

Orb - 1.19

You, especially, might be used to more superficial relationships, but your sweetheart won't allow your bond to exist on anything but a deep, intense and focused level. You have a really strong pull on them as well, though, don't worry. They see you as the light at the end of the tunnel, because they've always been so focused on the depths that they might not know how to come up for air.

Jupiter Trine with Sun - ♃ △ ☉

Harmony

Orb - 5.67

You both have an instinctive idea of what's good for each of you and the relationship, from the very start. Even if there are other, more troublesome aspects between you, this one helps warm things up and stabilizes your bond. This relationship is characterized by growth and success. You both go through some changes as individuals that can only be brought about through your connection with each other.

Jupiter Square with Mars - ♃ ☐ ♂

Challenging

Orb - 4.33

This aspect lends an element of competition that sparks up all your interactions; whether that's in a bad way or a good one is up to you. Whether you're on the same team or opposing ones; whether you're playing a game, having an argument, discussing a movie you just saw you push each other to say what you really mean, to focus your energies and efforts and get more done than you would have on your own. But then there's your opinionated nature to contend with you have plenty of opinions and you stand right by them, often at the expense of listening to your partner or weighing whether you're really correct in your own position.

Jupiter Trine with Venus - ♃ △ ♀

Harmony

Orb - 9.75

You bring out each other's best qualities and inspire each other to be your kindest, most generous selves. You are the couple that all your friends both love and envy the center of the party, popular and sociable, and with a visibly strong bond between you. Your connection only deepens with time because there is a natural affinity and receptivity between you. You are able to talk openly with each other about anything and everything that comes up, and you understand each other really well.

Jupiter Conjunction with Saturn - ♃ ♄ ♄

Dynamic

Orb - 0.27

This is a question you two must face together, because the particular blend of your energies lends itself to problem-solving and goal achievement. You are naturally the more enthusiastic, creative partner, while your lover tends more toward seriousness. This difference shouldn't be a problem; in fact, you help to balance each other out, providing energetic bursts or reality checks when needed. Similarly, you should take care not to pooh-pooh the soberness of your lover's thinking, because that sobriety provides a much-needed grounding influence.

Jupiter Square with Uranus - ♃ ☐ ⚡

Challenging

Orb - 6.55

This is a very dynamic relationship, but in ways that at least challenge you and make you two very uncomfortable. The problem is that too many ideas come together and try to assert themselves. You create a very exciting and spontaneous energy when you're together, but it may prove to be a little too much to handle from time to time.

Jupiter Square with Neptune - ♃ ☐ ♆

Challenging

Orb - 3.32

Your partner stimulates the most idealistic parts of your nature, which sounds nice except that they could encourage you to step off the edge of the mundane world and into the stratosphere with them. You're so idealistic when you're with your partner that you could become quite irresponsible. After all, if all your focus and interest goes toward the uplifting feeling of being together, you can't get much done in the way of tedious, day-to-day responsibilities. You talk each other up and it could be hard to come down again and face reality when it intrudes, which it has a nasty habit of doing.

Venus Conjunction with Sun - ♀ ☿ ☼

Dynamic

Orb - 4.91

You feel a lot of love for each other, right from the start. It's that there is a naturally high level of attraction between you, a current of romantic energy and awareness that fosters a fun, exciting involvement for both of you. This aspect lends your relationship long-term potential, and helps to warm up any other aspects between you that might be less romantic or closely attached. You embrace, stare into one another's eyes and share your deepest, most tender feelings, and still you want to be closer.

Venus Trine with Saturn - ♀ △ ♄

Harmony

Orb - 0.49

With this aspect, you aren't necessarily be the most affectionate couple around, at least not openly so but a strong bond has been forged between you that has easily translated to the long-term. Though you certainly have a social life that you enjoy together, you also influence each other both on a personal level and in your work and daily lives. You two focus on your responsibilities, both those that come with the relationship your commitment, for example and those that arise outside your union.

Venus Square with Pluto - ♀ ☐ ♇

Challenging

Orb - 1.49

Jealousy, emotional manipulation, possessiveness and control are likely major components of this relationship if you both weren't careful to sort out your feelings from the start. Your sexual attraction to them may also be overwhelming, and you feel transformed by your intimate experiences together. Your emotional lives are closely linked, almost without your having noticed when they merged. Any separations could leave you feeling intensely insecure, even abandoned, but if that

happens, it might have more to do with the kind of dependency your lover has worked hard to create than with anything really to do with you.

Saturn Trine with Sun - ♄ Δ ☉

Harmony

Orb - 7.07

You naturally share a lot of respect for each other, and that allows you to continue to grow as individuals even as you form a strong union with one another. You honor the relationship with a deep sense of responsibility, even duty but that doesn't weigh down the fun, light connection between you, and it doesn't limit who your partner is as an individual human being. This relationship is, in part, about personal growth, and about inspiring your lover in that growth. You're rather work- or career-oriented, and learn from your lover about how to let those things slide every now and again in order to make time for the more fun or romantic side of life.

Saturn Square with Mars - ♄ □ ♂

Challenging

Orb - 8.41

This aspect could produce negative feelings that fester under the surface of what could otherwise be a very good relationship. The problem is that you don't treat each other as equals when it comes to sex or work or anything else you try to accomplish, either as a team or on your own. You usually try to take the leadership position, telling your partner what to do and how to do it, and that inspires rebellion at the least, or even anger because you may not realize that they like to be in the lead! Your mutual sexual expression is similarly stilted; you rarely want the same thing at the same time, but you're both insistent about having your own needs met.

Saturn Square with Mercury - ♄ □ ☿

Challenging

Orb - 4.81

Though you might have gotten along well at first, after a while you find it increasingly difficult to communicate with each other. Your criticisms of your partner stack up and create resentments within them, and could deplete their self-esteem. As you know each other better and better, they could start to think that you're more prejudiced or conservative than they originally realized, and they want to challenge those limited ways of thinking. You're hard on their ideas, and as time goes on, you establish a pattern of challenging their intellect more and more.

Saturn Sextile with Jupiter - ♄ * ♃

Opportunities

Orb - 9.1

This influence is wonderful for a long-term relationship, because it really highlights two people's ability to work together toward a common goal. This could shift a great deal from one phase of your lives and relationship to the next. As a couple, your problem-solving strengths are as useful in resolving an argument as they are in taking on a huge project together, which is what makes this such an excellent long-term influence. This aspect supports a deep and abiding feeling of friendship and trust between you that helps you work together well and communicate on a deep level.

Saturn Square with Venus - ♄ □ ♀

Challenging

Orb - 7.5

If you're attracted to each other, that fact alone indicates that there are plenty of positive aspects between you, because this one makes things pretty difficult when it comes to relating naturally as a couple. There is an element of control coming from you to your partner that makes it hard to get along. When you're together, they feel restricted in their romantic expression toward you, and it could come out cold or just stilted. You try to restrain their natural way of being in a relationship.

Saturn Square with Uranus - ♄ □ ♅

Challenging

Orb - 6.19

Even if you didn't start out being overly traditional in your values regarding commitment, duty and so on, you became more so in this relationship, in part because of your lover's rebellious insistence on independence. Over time it's become apparent that you need a lot more security within the relationship than your partner does. Neither of these characterizations is exactly fair; it's just that you bring out these qualities in each other, because you're both naturally looking out for yourselves and your own interests in the relationship.

Uranus Opposition with Mars - ♅ ♂♂♂

Tension

Orb - 8.03

This aspect makes it really hard for your relationship to last. You could end up feeling as if the connection just isn't worth the pain and irritation that comes with it, unless there are plenty of other aspects between you to promote patience, warmth and affection. This aspect makes you feel very impatient with each other, unable to put up with even the smallest of your buttons being pushed. You constantly assert your need for independence from your lover and the relationship, which could make your partner respond by trying to force a commitment of some kind.

Uranus Opposition with Mercury - ♅ ♂♀

Uranus Opposition with Venus - ♅ ♂ ♀

Tension

Orb - 7.88

You're highly attracted to each other, but make sure it's not purely because you excite each other, or that you represent a certain unpredictable quality that they find attractive. Farther into your relationship, you might find that your lover, especially, is disappointed with what your relationship has turned out to be. They have the feeling from the start that things between you are exciting, new, unexpected and unique. Your dates are fun, spontaneous roller coaster rides that leave them laughing and panting for more.

Uranus Conjunction with Uranus - ♅ ♂ ♅

Dynamic

Orb - 5.81

You each have some unique ideas about the world and your place in it. You have your own sense of humor, your own frame of references, and your own pair of metaphorical glasses through which you view life. You're aligned in your take on the world; when you get together you feel an excitement, an energy, and you both want to impress each other, to make each other laugh with bigger, brighter, bolder stories and ideas.

Neptune Opposition with Mars - ♆ ♂ ♂

Tension

Orb - 4.35

Under this influence, honesty is hard to come by and communication gets very confusing and difficult. You could even become passive-aggressive with your partner, pretending things are fine when really they aren't fine at all, jabbing them with little hurtful comments that indicate things aren't well between you. Don't misunderstand

this tendency it's not that you're a bad or a mean person. After all, they might not be perfectly honest with you, either; you might try to talk to them about your feelings or your problems, and they fake interest or concern because they really don't get what you're talking about or why you feel like you do.

Neptune Sextile with Jupiter - ♆ ✳ ♃

Opportunities

Orb - 8.14

Spiritually, you lift your partner up into the clouds. You stimulate the most idealistic parts of their nature, and they could just step off the edge of the mundane world and into the stratosphere with you. If your sexual bond is a strong one, this makes it even more so, because the feelings you both experience during lovemaking are quite overwhelming. Of course, this could make it hard to get your normal, day-to-day duties done after all, who wants to pay bills, clean house or go to work when you could spend time with this amazing person in your life who makes you feel as if your very soul is expanding.

Neptune Square with Saturn - ♆ ☐ ♄

Challenging

Orb - 0.29

Your partner naturally takes a practical view of life; they trust in the things that they can see, touch, feel and otherwise count on in a tangible way. They believe in hard work and responsibility, and anything more abstract than that seems untrustworthy or out-and-out silly to them. But there's a whole other side of things the intangible, the instinctive, even the psychic and you have a good grasp on these concepts. You tend to lead with your gut, acting on instinct and reaching out as often with your mind as you do with your hands.

Neptune Conjunction with Uranus - ♆ ♂ ♅

Dynamic
